Eligibility Requirements

- Be organized primarily to provide care for children after school or on the weekends, holidays, or school vacations during the regular school year.

- **MUST** Provide organized regularly scheduled education or enrichment activities (i.e., in a structured and supervised environment).

- Be located in an attendance area of school where at least 50 percent or more of the children are eligible for free or reduced price meals (See Part 1, Section C) [7 CFR 226.2; 7 CFR 226.17a(b)].

  *Health Inspections - The Central/Main Kitchen must have a health inspection*
Activities

Programs must provide educational or enrichment activities that are open to all children in an organized, structured, and supervised environment.
Program Eligibility

Activities

Program must provide educational or enrichment activities in an organized, structured, and supervised environment.

Activities should be **AGE appropriate**

Examples:
- Arts and craft
- Homework assistance
- Life skills
- Remedial education
- Organized fitness activities
- Public Speaking
Students who are part of school sports teams and clubs can receive Afterschool Snacks or Meals as part of a broad, overarching educational or enrichment program, but the Program cannot be limited to a sports team (Athletic Programs and Afterschool Meals, October 2, 2012).
Eligible organizations must meet State and/or local licensing or health and safety standards (see Part 1, Section E of this document) and be operated by one of the following:

- public agencies such as schools or city governments
- tax-exempt nonprofit organizations
- For-profit centers that meet the requirements described below,
- are currently participating in another Federal program requiring nonprofit status [7 CFR 226.17a(a)(iv)].
A for-profit child care center may receive reimbursement for the At-Risk Afterschool Meals component of the CACFP if meets the Program eligibility requirements discussed above, and is eligible to participate in CACFP through its traditional child care center.
For-Profit Centers

- As with the CACFP child care component this means at least 25 percent of the children served by the for profit center through its traditional child care component are:
  - eligible for free or reduced price meals based on their family income; or
  - receive benefits under title XX of the Social Security Act and the center receives compensation under title XX
This 25 percent threshold is based on the center’s enrollment or the licensed capacity, whichever is less. It is calculated during the calendar month preceding application for Program participation. In addition, in order to claim reimbursement in any calendar month, the center must meet the 25 percent threshold in that month (for more information see definition of a for-profit center in 7 CFR 226.2).
For-Profit Centers

In determining a for-profit center’s eligibility for At-Risk Afterschool Meals reimbursement, only the enrollment and/or licensed capacity of the traditional child care component of the center may be considered in calculating whether the center meets the 25 percent criterion.
EXAMPLE: A for-profit child care center located in a school attendance area where more than 50 percent of the children are eligible for free or reduced prices meals.

This for-profit center has 32 pre-school children enrolled for care, and also operates an afterschool program for school-age children. The center would be able to claim reimbursement through CACFP for meals served under the traditional child care component and for afterschool snacks, in any month in which at least 8 of the 32 pre-school children are eligible for free or reduced price meals or are title XX recipients.

The school age children who only participate in the afterschool programs cannot be used in the calculation.
Traditional Child Care Centers

While the At-Risk component of CACFP is primarily geared towards non-traditional child care centers such as drop in Afterschool Programs, traditional child care centers already participating in CACFP also may participate.

In this situation, children would attend the center after their school day or on weekends, holidays, or school vacation. Children who do not attend school would continue to participate in the traditional CACFP meal service provided by the center, even during the “afterschool” hours.

Centers operating both the traditional and At-Risk components of the CACFP may only claim a total of two meals and one snack or one meal and two snacks, per child per day, including the afterschool snack or meal [7 CFR 226.17a(k)].
Area & Participant Eligibility

Area Eligibility:

This means that the site is located in the attendance area of a public school (an elementary, middle, or high school) where at least 50 percent of the students are eligible for free or reduced price meals under the National School Lunch Program (NSLP). This is referred to as “area eligibility.”
Area Eligibility

- Must be area eligible (except emergency shelters)
- Emergency shelters that operate Afterschool Programs with education or enrichment activities for homeless children and youth during the school year may participate without regard to location [7 CFR 226.2 Definitions].
- Area eligibility determinations are valid for five years
- Reports are available at https://www.fns.usda.gov/areaeligibility
Who can participate?

At-risk afterschool programs may claim reimbursement only for meals and snacks served to children who participate in an approved afterschool program and who are age 18 or under at the start of the school year.

Programs may be either drop-in or enrolled. There is no requirement that all children receiving meals participate in the scheduled activities, but children should remain onsite while consuming the meal.
Participant Eligibility

- Reimbursement also may be claimed for participants who turn age 19 during the school year [7 CFR 226.17a (c)]. There is no age limit for persons with disabilities [7 CFR 226.2 Definitions].

- Federal law has no minimum age for At-Risk participants. Meals and snacks served to children who are enrolled in preschool, Head Start, Even Start, etc., and who are participating in an eligible Afterschool Program are eligible for reimbursement.
Compliance with Performance Standards

- Financial viability and financial management
- Administrative capability
- Program accountability
Must notify the State agency of ALL changes:

- Contact information

**Lunch:** Minimum Meal Pattern: 8 fl. oz. LF Fluid Milk, ¼ c. Vegetables/Fruit/Juice (from two items) Juice may contribute half of the V/F portion size requirement, Juice only 3 x Week. Once per Day, one serving Grains/Breads - Whole Grain Items once a day - Must be identified on menu as "WG or Whole Grain", and 2 oz. Meat/Meat Alternate - Must identify CN label.
Vegetables and Fruit

Creates a separate vegetable component and a separate fruit component.

If two vegetables are served, they must be two different kinds of vegetables. But, they do not need to be from different vegetable subgroups.

For example, a provider may serve a lunch meal with carrots and tomatoes (both from the red and orange vegetable subgroup).
Vegetables and Fruit

100% Juice is limited to once per day & Arkansas standard already Limits juice to no more than three times per week.
Grains products are required to be served at breakfast, lunch, and supper and centers may choose to serve a grain item at snack.

Similar to other food components, the updated meal patterns established several new requirements for the grain component. The following requirements are as followed:

- At least one grain serving per day, across all eating occasions, must be whole grain rich.
- Grain based desserts cannot be used to meet the grains requirement.
- Breakfast cereals must contain no more than 6 grams of sugar per one dry ounce.
Whole grain-rich foods that contain at least 50% whole grains and the rest are enriched, or contain 100% whole grains.

**Breads, cereals, and other non-mixed dishes:** A whole grain is listed as the first ingredient on the product’s ingredient list or second after water.

Some examples of whole grain ingredients are whole wheat, brown rice or wild rice, oatmeal, bulgur, whole-grain corn, and quinoa.
In other cases, you may need to look at the nutrition label and list of ingredients:

**Yes:** whole [name of grain], whole wheat, stoneground whole [name of grain], brown rice, oats or oatmeal, wheat berries

*Maybe:* wheat or wheat flour, semolina, durum, organic flour, stoneground, multigrain

**No:** enriched flour, degeminated corn meal, bran, enriched corn meal, corn flour
Effective October 1, 2017
Grain Based Desserts NOT Creditable

Disallows Grain-Based Desserts
The final rule adopts one of the suggested definitions and defines grain-based desserts as those foods in USDA’s “Food Buying Guide for Child Nutrition Programs” Exhibit A, which are denoted as desserts with superscripts 3 and 4.

In essence, it means that cookies, cakes, sweet pie crusts, fruit turnovers, doughnuts, granola bars, toaster pastries, sweet rolls, and brownies would no longer be allowed in a reimbursable meal.

1. In NSLP and SBP (grades K-12), all grains served must meet whole grain criteria. For information on flexibilities, please contact your State agency. For all other Child Nutrition Programs, grains are whole grain or enriched or made with enriched or whole-grain meal and/or bran, germ, and/or germ. Under CACFP child and adult meal patterns, and in NSLP/SBP preschool meals, at least one grain serving per day must meet whole grain-rich criteria.

2. For NSLP and SBP (grades K-12), grain quantities are determined using ounce equivalents (oz eq). All other Child Nutrition Programs determine grain quantities using grains/bread servings. Beginning Oct. 1, 2019, grain quantities in CACFP and NSLP/SBP infant and preschool meals will be determined using oz eq. Some of the following grains may contain more sugar, salt, and/or fat than others. This should be a consideration when deciding how often to serve them.

3. Allowed in NSLP (up to 2.0 oz eq grain-based dessert per week in grades K-12) as specified in §210.10. May count towards the grain component in SBP (grades K-12), CACFP, NSLP/SBP infant and preschool meals, and SFSP.

6 Allowed in NSLP (up to 2.0 oz eq grain-based dessert per week in grades K-12) as specified in §210.10 and at snack service in SFSP. Considered a grain-based dessert and cannot count towards the grain component in CACFP or NSLP/SBP infant and preschool meals beginning October 1, 2017, as specified in §§226.210(a) and 210.10.

7 Refer to program regulations for the appropriate serving size for supplements served to children aged 3 through 5 in the NSLP, breakfast served in the SBP, and meals served to children ages 1 through 5 and adult participants in the CACFP. Breakfast cereals are traditionally served as a breakfast menu item but may be served in meals other than breakfast.

In the NSLP and SBP, cereals must list a whole grain as the first ingredient and be fortified, or if the cereal is 100 percent whole grain, fortification is not required. For CACFP and SFSP, cereals must be whole-grain, enriched, or fortified, cereals served in CACFP and NSLP/SBP infant and preschool meals must contain no more than 6 grams of sugar per dry ounce.
**Step one**: Check the first ingredient on product. Remember “Whole grain, Enriched or Fortified”

**Step two**: Locate the item in the Grains/Bread s section on the Food Buying Guide

**Step three**: Determine how many of the item you will need to give to meet 1 serving...
Breakfast cereals must contain no more than 6 grams of sugar per dry ounce.

Alternatively, centers and day care homes may use the Nutrition Facts Label on the cereal packaging to calculate the sugar content per dry ounce.

**Step One:** First, Use the Nutrition Facts label to find the serving size in grams (g), of the cereal.

**Step two:** Next, Find the sugars line. Look at the number of grams (g) next to the sugars.

**Step three:** Use the serving side identified in Step 1 to find the serving size of your cereal in the table on below.

Offer versus Serve (OVS)

Schools electing to use OVS must implement it in accordance with the approach used by the school providing the meals.

OVS may not be used with snack services.
Programs must provide:

1. One serving of milk
2. One serving of fruit/vegetable
3. One serving of grain
4. One additional serving of fruit/vegetable, grains, or serving of a meat/meat alternate

Participants must take 3 different food items out of the 4 food items offered.
OVS at Breakfast Examples
OVS at Lunch/Supper Example
In order to ensure compliance with the whole grain-rich requirement outlined in 7 CFR 226.20(a)(4), CACFP centers and day care homes must document on their menu & Production records when a grain is whole grain-rich.

**Documentation**

- Document Whole grain-rich items on the meal production record & menus by noting

  “Whole Grain-rich in front of a food items. Such as “Whole grain-Rich English muffins” or “WG Muffin” is acceptable.”
Compliance

In order to ensure compliance with the whole grain-rich requirement outlined in 7 CFR 226.20(a)(4), CACFP centers and day care homes must document on their menu & Production records when a grain is whole grain-rich.

**Documentation**

Document Whole grain-rich items on the meal production record & menus by noting

- Only milk types allowed are Skim and Low Fat (1%)
Drinking water MUST be made available to children throughout the day, including meals times.

- WATER is not part of the reimbursable meal pattern & CANNOT be served in lieu of fluid milk. (pg.39 At-Risk Afterschool Handbook)
Food Buying Guide

An essential manual to help determine quantities of food to purchase for use when preparing meals for children.

Child Nutrition (CN) Labels

Provides information on how a product contributes to the meal pattern requirements.

If you purchase a product that does not have a CN label, you must obtain the Product Formulation Sheet (Manufacturer’s Analysis).

Child Nutrition (CN) Labeling Program:

Combination Foods

Foods that have more than one ingredient are considered combination foods.

- May be commercially made or homemade
  - Commercial – need **CN label, Product Formulation Statement or Manufacturer’s Analysis**

  - Use USDA Standardized Recipe Resources
How to identify a CN label?

A CN label will always contain the following:

- The CN logo, with a distinct border
- The meal pattern contribution statement
- A 6-digit product identification number
- USDA/FNS Authorization
- The month and year of approval
MEAL REQUIREMENTS

CACFP requirements:

- Recipes with two or more ingredients must be standardized and maintained on file.
- Standardized recipes ensure that enough of each planned meal pattern component is provided.

What is a standardized recipe?

- Standardized recipes have been tried and adapted to produce the same results every time.
- Standardized recipes must include the following information:
  - Recipe name
  - Ingredients (name, form and measurable amount by weight or volume)
  - Preparation instructions
  - Cooking temperature and time
  - Serving size of one portion (volume or weight)
  - Yield:
    - Number of servings the recipe makes
    - Total volume or measure (gallons, pieces, pans)
    - Pan size, if applicable
    - Number of servings per pan
  - How a serving contributes toward meeting meal pattern requirements
Use recipes already standardized whenever possible. The *Food Buying Guide* contains instructions in Appendix A for analyzing your own recipes.

Crediting Shelf-Stable, Dried and Semi-Dried Meat, Poultry, and Seafood Snacks:

Dried meat products may now be used throughout the CNPs as part of reimbursable meals or snacks at the discretion of the Program operators. In order to simplify meal planning for operators, use of the products is not limited to meals and snacks served off-site. To credit these products, Program operators will follow the crediting principles used for all other products made from meat, poultry, or seafood. For more information, see the Food Buying Guide for CNPs at https://www.fns.usda.gov/tn/food-buying-guide-for-child-nutrition-programs, and the Manufacturer’s Product Formulation Statement section of the CN Labeling Program website at https://www.fns.usda.gov/cnlabeling/food-manufacturersindustry.

Examples: beef jerky or summer sausage
FNS will allow Program operators to credit the following food items that have not previously contributed to the CNP meal pattern requirements: coconut, hominy, popcorn, surimi seafood, and tempeh.
Not Creditable as Vegetables/Fruits

- Ketchup/Chili sauce, pickle relish
- potato chips & veggie Sticks
- Coconut
- Commercial pizza or spaghetti sauce without CN label
- Fruit in yogurt (unless you add the fruit)
- Jelly, jam, and preserves
- Fruit-flavored drinks, or punches less than 50% strength
- Pop tart fillings
- Popsicles (unless 100% fruit juice)
Not Creditable as Meat/Meat Alternates

- Imitation cheese or cheese products
  - i.e. Velveeta is not creditable
- Cream cheese
- Commercial pot pies
- Formulated (processed) meat products with no product specifications or CN labels
- Wild game and traditional foods that are disallowed
Example- Velveeta Products are labeled as “PASTERIZED PREPARED CHEESE PRODUCT” therefore they are NOT CREDITABLE.
Meat and Meat Alternates

- May substitute the ENTIRE grains component at breakfast a maximum of three times per week.
- Allows Tofu
Meat and Meat Alternates

- THIS IS OPITIONAL!

- The New meal patterns allow meat or meat alternates to substitute for the ENTIRE grains component at breakfast a maximum of three times per week.

- Tofu will allow CACFP to better serve vegetarian diets and offer greater flexibility to the menu planner.
Meat and Meat Alternates

- Yogurt must contain no more than 23 grams of sugar per 6 ounces.

The final rule adopts the proposed rule’s requirement to prohibit centers and day care homes from frying food as a way of preparing food on-site and continues to allow providers to purchase pre-fried foods.

The final rule adopts a definition that was presented by commenters: frying means deep-fat frying (cooking by submerging in hot oil or other fat).

By defining frying as deep-fat frying, centers and day care homes have great flexibility in how they choose to prepare meals and may continue to sauté, pan-fry, and stir-fry foods.
Meal Service must be served during approved time

Meals must be consumed on site, children are not allowed to take food home!!!

The Meals must contain all required food components, all components must be served together with correct portion sizes

Must serve the same meal to all children

Adhere to local health and sanitation regulations.

Can not provide supper and snack together at the same time.
At-Risk sites may serve up to one meal and one snack per child per day. This could be any meal and they may serve different meals on different days or to different groups of children. (Pg. 17 At-Risk Handbook)

What is Discrimination?

Discrimination is defined as different treatment which makes a distinction of one person or a group of persons from others; either intentionally, by neglect, or by actions or lack of actions…
What is Protected class?

Persons with disabilities who require alternative means of communication for program information (e.g. Braille, large print, audiotape, American Sign Language, etc.), should contact the agency (state or local) where they applied for benefits. Individuals who are deaf, hard of hearing or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

What is CACFP?
CACFP is the Child and Adult Care Food Program, a Federal program that provides healthy meals and snacks to children and adults receiving day care.

Each day more than 2.6 million children and almost 60,000 older adults participate in CACFP. Through CACFP, participants’ nutritional needs are supported on a daily basis. The program plays a vital role in improving the quality of day care and making it more affordable for many low-income families.

In addition to day care, CACFP helps make afterschool programs more appealing to at-risk youth. By offering nutritious snacks in programs serving low-income areas, centers can increase participation and know that youth are having a healthy snack.

Homeless children and children from temporarily displaced families can also receive up to three meals each day through shelters that operate the program.

Who is eligible for CACFP meals?
- children age 12 and under,
- migrant children age 15 and younger,
- functionally impaired adult participants or adults age 60 and older enrolled in an adult day care center, and
- youths through age 18 in afterschool programs in needy areas.

What kinds of meals are served?
CACFP facilities follow the meal patterns established by USDA.

- **Breakfast** consists of a serving of milk, fruit or vegetable, and grains or bread.
- **Lunch and dinner** require milk, grains or bread, meat or meat alternate, and two different servings of fruits or vegetables.
- **Snacks** include two different servings of the four components: milk, fruits or vegetables, grains or bread, or meat or meat alternate.
Building for the Future

CACFP Facilities
Many different facilities operate CACFP, all sharing the common goal of bringing nutritious meals and snacks to participants.

- **Child Care Centers**
  Licensed or approved public or private nonprofit child care centers, Head Start programs, and some for-profit centers serve meals to large numbers of children.

- **Family Day Care Homes**
  Small groups of children receive nonresidential day care in licensed or approved private homes.

- **Afterschool Care Programs**
  Centers in low-income areas provide free snacks to school-age children and youth.

- **Homeless Shelters**
  Emergency shelters provide residential and food services to homeless children.

- **Adult Day Care Centers**
  Public, private nonprofit, and some for-profit adult day care facilities provide structured, comprehensive services to functionally impaired nonresident adults.

How does CACFP work?
CACFP reimburses participating centers and day care homes for serving nutritious meals. It is administered at the Federal level by the Food and Nutrition Service (FNS), an agency of the U.S. Department of Agriculture (USDA).

The State education or health department administers CACFP in most States. State agencies approve sponsoring organizations and independent centers to operate the program on the local level. The State also monitors the program and provides guidance and assistance to ensure requirements are met.

Sponsoring organizations play a critical role in supporting home day care providers and centers through training, technical assistance, and monitoring. All family or group day care homes must come into the program under a sponsoring organization. Several types of organizations are approved by the States to serve as sponsors—community action groups, nonprofit organizations, and churches.

B. Process for Reimbursement

Sponsors and independent centers must submit claims for reimbursement to the State agency each month. These claims must accurately report the number of meals and snacks served. Original claims must be postmarked and/or received by the State agency no later than 60 days following the last day of the month covered by the claim. Some State agencies may have stricter claim submission deadlines [7 CFR 226.10(e)].

Sponsored centers submit claims to their sponsor. Sponsors then check each facility’s meal claim to ensure accuracy. At a minimum, edit checks must verify that each facility has been approved to serve the meals claimed and compare the number of children at each center, multiplied by the number of days on which the center is approved to serve meals, to the total number of meals claimed by the center for that month. While block claim edit
Monitoring
Monitoring Requirements for sponsors

Sponsors of multiple sites are required to monitor each site three times per year (see handout).

A monitor should be someone who is NOT involved in the day-to-day operations.

You can not have more than 6 months lapse between required monitoring visits.

Meal count compared to attendance:

Are meal counts greater than daily attendance on any day during this time period?  
Y  N  N/A

If "yes", explain any discrepancies:

1. Choose five consecutive days prior to the day of review from the meal count record, including weekends and holidays, when the facility was open and serving meals. Write the dates in the “Date” column.

2. Gather records of meal counts for this period. Write the totals in the meal columns.

3. Identify the number of children in attendance daily during the five-day period. Write this number in the “Daily Attendance” column.

4. Compare total meal counts to daily attendance to ensure that meal counts for each approved meal type did not exceed the number of participants in attendance on any day.

Per 226.16(d)(4)(ii) Reconciliation of meal counts: Reviewers must examine the meal counts recorded by the facility for five consecutive days during the current and/or prior claiming period. For each day examined, reviewers must use enrollment and attendance records (except in those outside-school-hours care centers, at-risk afterschool care centers, and emergency shelters where enrollment records are not required) to determine the number of participants in care during each meal service and attempt to reconcile those numbers to the numbers of breakfasts, lunches, suppers, and/or snacks recorded in the facility’s meal count for that day. Based on that comparison, reviewers must determine whether the meal counts were accurate. If there is a discrepancy between the number of participants enrolled or in attendance on the day of review and prior meal counting patterns, the reviewer must attempt to reconcile the difference and determine whether the establishment of an overclaim is necessary.
The Arkansas Department of Human Services (DHS) is required to conduct compliance reviews.

DHS will review sponsors and sites to ensure compliance with program regulations, USDA’s non-discrimination regulations and any other applicable instructions issued by USDA.

Procurement Thresholds

Procurement
Micro Procurement/Small Purchase

Micro Procurement (federal law) or a Small Purchase (state law) is a procurement that does not exceed a total purchase price of $10,000. Because of the modest price, small purchases do not have to be procured via competitive bids or competitive sealed bids.

Reference: 2 CFR §200.320(a)
A Small Procurement (federal law) or Competitive Bid (state law) is used when the total project cost of the contract exceeds $10,000 and is less than $250,000. A competitive bid requires that the Agency solicit at least three (3) bids from vendors.

Cost is main factor in awarding the contract. Awards will be made to the lowest bid that meets the procurement requirements, criteria, and specifications.

Reference: 2 CFR §200.320(b)
A sealed Bid (federal law) or an IFB (state law) is the standard method of competitive procurement when the price exceeds $250,000. An invitation to bid on the procurement is issued to the public and all bids are evaluated at the close of the offering.

The contract is awarded to the lowest bidder that meets the invitation’s qualifications.

Reference: 2 CFR 200.320 (c)
A competitive proposal (federal law) or RFP (state law) is used when the contract exceeds $250,000 and price is not the sole determining factor in the project. Vendors propose an overall solution to the requirements outlined in the RFP. Proposals are scored based upon vendor experience, the strength of their overall solution, and any other criteria specified in the bid. The overall proposal is given a weighted score, which is combined with a weighted score for price to determine the best value. Typically, within State procurement, we use a 70/30 split.

Reference: 2 CFR §200.320(d)
Corrective Action

- When a violation is found, the sponsor must correct the problem and send a letter to the State Agency stating how it is going to fix the problem.

- High level of violations result in an immediate correction and declaration of seriously deficient.

  Recurrence of same problem will result in a serious deficiency determination
  DHS to propose termination if serious deficiency recurs

- State agency will initiate a follow-up system to ensure that sponsors take the specific action for correcting site violations.

- Time Limit to Correct the Problem
A facility may appeal the proposed termination by requesting an administrative review within 15 days of receiving the notice of proposed termination.
